Mohdanas2253@gmail.com | Ph- 9793192014 | [linkedin.com/in/mohd-anas-99503125a](https://www.linkedin.com/in/mohd-anas-99503125a)

PROFILE

Motivated Java Full Stack Developer with hands-on experience in designing and building enterprise-grade web applications. Proficient in Core Java, OOP principles, Spring Boot, REST APIs, and MySQL. Adept at delivering end-to-end solutions from intuitive frontends (HTML, CSS, JavaScript) to robust, scalable backends. Passionate about clean code, problem-solving, and continuously expanding technical expertise in a fast-paced development environment.

SKILLS

Frontend: HTML, CSS, JavaScript

Backend: Core Java, Spring Boot, Hibernate, JDBC, JSP, REST API

Frameworks: Spring Boot, Bootstrap

Database: MySQL

Tools: Maven, Git, GitHub, Postman, Swagger, VS Code, IntelliJ IDEA, Eclipse

SOFT SKILLS

Problem Solving • Team Collaboration • Communication • Attention to Detail • Quick Learner • Adaptability

EXPERIENCE

Java Full Stack | internship — BARROWNZ PEARL WEB PRIVATE LIMITED, Lucknow Jan/2026 – Present

- Developing and deploying real-world enterprise web applications using Java, Spring Boot, REST APIs, and MySQL in a collaborative team environment.
- Building full-stack features covering frontend interfaces (HTML, CSS, JS) and backend services (Spring Boot, JPA/Hibernate) with attention to performance and maintainability.
- Participating actively in code reviews, debugging sessions, and agile feature implementation cycles.
- Integrating RESTful APIs with frontend components and optimizing database interactions for improved application efficiency.

Java Full Stack Trainee — BARROWNZ LEARNING ACADEMY, Lucknow June/2025 – Dec/2025

- Acquired comprehensive, hands-on experience with J2EE technologies including Servlets, JSP, and JDBC database integration.
- Developed dynamic, data-driven web applications with strong command of OOP principles, MVC design patterns, and database-driven architecture.
- Built foundational projects with user authentication, CRUD operations, and session management using core Java technologies.

PROJECTS

RojgarShine | Job Portal Web Application Feb 2026 – Present

- Building a full-stack job portal using Spring Boot, JSP/Servlet, MySQL and HTML/CSS/JS enabling job seekers and employers to connect — developed in a team of 2-3 members.
- Implemented role-based User Registration & Login, Job Posting by employers, Resume Upload, and Apply for Jobs functionality.
- Developed Job Search & Filter, Admin Dashboard for managing users and postings, and Email Notification system for application status updates.

Tech: Java, Spring Boot, JSP/Servlet, MySQL, HTML, CSS, JavaScript, Maven

GitHub: github.com/Anas00123/job_portal_backend

Deep Packet Inspection (DPI) System — Spring Boot + MySQL Jan 2026

- Built full-stack network security system using Spring Boot REST API, 4 Java interfaces and 15 JPA entity models mapped to MySQL for real-time packet capture and threat detection.
- Implemented Layer-7 protocol detection (HTTP, HTTPS/TLS, DNS, FTP, SSH), TLS/JA3 fingerprinting, cipher suite analysis, and DNS tunnelling detection using Shannon entropy scoring.
- Developed signature-based threat detection engine (REGEX/HEX/YARA rules) with IP reputation checking, auto-generating CRITICAL/WARNING/INFO severity alerts.
- Created live HTML/JS dashboard with Chart.js throughput charts, real-time packet feed, protocol distribution, and security alerts — polling REST API every 2 seconds.

Tech: Java 17, Spring Boot 3.2, MySQL 8, JPA, Hibernate, REST API, HTML, CSS, JS, Maven GitHub:

EDUCATION

B.Tech

07/2023 – 2026

Computer Science and Engineering | CGPA 7.46

Goel Institute of Technology and Management

Diploma

Computer Science and Engineering | 75%

04/2020 – 03/2023

Sevdi Institute of Management and Technology
